“ Hello everyone, shirley, I am so sorry I was not there to comfort you. Eventhough I know you had so many, I hate that I was not one of them. As I told you, I was in the hospital from complications from my surgery. I know you have Jehovah's hope. I just want to tell you, make sure you are there to welcome him back and tell him all the things that happend from this time til the time he was awaken from his sleep. Take care my friend.
